

## TOPDOWNWAY® AT 120 WYNDFORD ROAD

Safedem is ready for the tower crane to be delivered and erected at 120 Wyndford Road. The large pieces of equipment will be transported carefully to the site using specialist vehicles.

Two mobile cranes will arrive at Wyndford Road on 10th December around 6am. We apologise for the early start, but due to their size, they are unable to be moved during normal working hours. Other parts of the crane will arrive later that day.

It is expected to take around three days to build the tower crane, depending on weather conditions.

Wyndford Road and all surrounding roads will remain open. We will have staff directing traffic from time to time. For your safety, please follow any traffic directions and take extra care crossing nearby roads.

We hope this information is helpful during this phase of work. If you have any questions about the crane delivery or installation, please contact Safedem on 01382 811444 or by e-mail at [clteam@safedem.co.uk](mailto:clteam@safedem.co.uk).
